Declaration of the configuration management

A part of the subjected Inverters: VL1102-01R and VL1102-02R mounted to V1000 and T1000V series are defined as safety-related parts. Therefore, the identical part numbers are described on CDF for the Inverter series and maintained.

For VL1102-01R and VL1102-02R, we agree with TUV SUD to maintain that:

- any software modification in VL1102-01R and VL1102-02R never affects the part of software under the FSM system,
- this is confirmed by our internal modification / design change procedure with actual testing,
- this record shall be kept,
- in case of any effects due to the software modification in VL1102-01R and VL1102-02R, this information shall be reported to TUV SUD in the form of impact analysis report and
- during the production of the subjected Inverters, VL1102-01R and VL1102-02R can be checked with the configuration management sheet.
